

Rug Course

DK Vævernes Hus, Katstrup God, Katstrupvej 22, 4450 Jyderup

Instructor: Gitte Karlshøj, væver og designer

Rug Course (II) deals with rugs, rugs, rugs

We will get involved with all the old techniques that are not normally applied in modern rug making. The important question is to make rugs of the right quality. In the course we will be using techniques such as Samitum, Lampas, Taquete, Jasper, Kuvitas, Beiderwand, Double weaving with 3 layers, Finnweaving and Damask made on a ordinary 8 shaft loom.

Each course will last 5 days and will cover 10 different techniques. The patterns will be supplied for the various techniques. Courses will take place on 4 different dates in October. It is possible, with agreement, to change 1 or 2 course days, for days on another course, if there are time difficulties.

It is not a precondition that you have previously participated in the rug course at 'Vævernes Hus' or other rug courses, but it would be beneficial for inexperienced weavers. The course would be of interest for those that have a minimum of 2 year's weaving experience.
